Pact.Cloud Capabilities

Multi Cloud and Migrations

Assessment and Planning

- Assessment of workloads for Migration
- Consulting for Multi-Cloud deployments
- Consulting for Private cloud workloads
- Assessment & Deployment of Hybrid scenarios

Finding the best cloud fitment

Multi Cloud & Migration

- Data & DB Migration (IaaS or PaaS)
- Re-Architecting for Cloud-native Apps
- Migration from any Cloud to Azure
- [Cloud-native @ on-prem]
- Cloud simple (VMware) Migrations

Migrating to the best solution for your needs

Serverless and Container

- Kubernetes service (AKS)
- Container Instance
- Service fabric
- Function & Automation
- Logic-Apps and API management
- Event Grid

Evangelising fully cloud-native services

Managed Services

Monitor

- Incident reporting to Operational Mgmt.
- Recommendation of cost optimisation
- RBAC and Rules management
- **Governance: 4C framework**

Fully managed cloud operations

Security

- Security and identity protection
- Test and Audit
- Security benchmark analysis
- Risk management best practice
- Advanced threat protection

Fully secure environment

Backup and DR (ASR)

- Automatic backup solution
- Tiered retention policy
- Self service restore

- Customizable recovery
- Auto discovery and protection

Cloud as an innovation platform

AI/ML

- ML Studio
- Databricks
- Bot Service
- GPU accelerated AI

Any ML-DL Workload over Azure

RPA on Azure

- UI Path over Cloud
- Process discovery with Kyron
- Automation Designer bots over Cloud

Automation Design over Azure

Data orchestration

- Automatic Data Orchestration
- Batch processing and auto alerting
- Auto archival and policy based storage
- Data-Masking and RBAC

Automatic data pre-processing

Cognitive services

- Text Analytics
- Speech and Video Analytics
- Pre-fabricated solution modules: Cognitive and domain based
- Listening platforms: Twitter, FB & Insta real-time analytics

Sentiment Analytics on-the-go

IOT and Industry 4.0

- Edge computing solutions
- IOT HUB and IOT Central
- IOT Stream analytics
- Digital Twins

Smart OT and IT Integration
